

I very much enjoy my satellite xm radio in my car. I also travel alot and depend on the weather and new channels!!!! I bought one for my son for his home and car and he used it while driving to California and back. He said he depended on it for weather especially driving through Texas during the bad weather a couple of weeks ago. I think the last time I checked this was still a free country. Correct? Thank you for letting me xpress my view. Shirley McDowell
